# 2014 Mobile Cassette Holders

Model 10900-S

Detail of handle and high positioner

Detail of bilateral clamp and low reach of cassette holder.

## Standard Mobile Cassette Holder (Model 10900-S recommended for film and CR cassettes)

These are the standard features of all our new style mobile unit:

- Vertical range from bottom of image receptor of floor to 54"
- A positive lock height adjustable arm with spring loaded pin
- Chromed steel 60" post
- 24" wide "H" shaped base with locking casters. This wide stance helps prevent tipping.
- Platinum baked enamel finish which provides an easy to clean base that is perfect for OR settings.
- Bilateral clamp to safely secure imaging receptors in the cassette holder. The holder has a 1.25" deep channel to accept grids and caps.

Model 10900-DR

## Mobile Cassette Holder for DR Cassettes (Model 10900-DR)

This model is specially designed for DR cassettes and can be used for CR cassettes, as well. It will hold up to a 20.5" wide DR/CR receptor. It is meant to be used in a fixed position only. It is non-articulating.

Additionally, our "DR" model has all the features of the standard mobile cassette holder.

Model 10900-E

Tilt back

Rotate to side

## Mobile Cassette Holder With Extended Arm (Model 10900-E)

This model is based on the standard unit and has all the same features.

In addition, our extension arm tilts and rotates and extends image receptors 11" to 23" from the vertical post.

Model 10900-L

## Mobile Cassette Holder for 14"x36" and 14"x51" Cassettes (Model 10900-L)

This model is specially designed for the longer cassettes.

It has all the general features of our standard unit but because it is designed for the larger, heavier cassettes it is designed to hold the cassettes in a fixed position. It is non-articulating.

## Cross Table Cassette Holder (Model 10920)

Securely holds plate/cassette in a stable upright position. Holds up to 14" x 17" cassettes. Accepts Grid Cassettes and CR-Plates. Upper channel includes a Rotating R and L Marker. 7 lbs.
