Records and Film Storage Products

AMD provides a number of film storage products. If you do not find what you need, please contact us.

Film Safes

Never worry again about accidental exposure of stored film. The Film Safe can only be opened under safelight conditions. Accidental exposure is virtually impossible.

Here's how it works. To open the Film Safe, press the lock release. The solid state components in the unit will measure the amount of light in your darkroom and if safe, the lid is released for removal or insertion of film. The lid is designed to "fall" closed when released.

Features & Benefits

- Light-sensitive door lock
- Compact size
- Lightweight
- Various Sizes
 - Shelf Mount (Models 30770/1)—holds up to 10" x 12" film sizes
 - Table Top (Model 30772)—holds up to 14" x 17" film sizes
 - Under Counter (Model 30774)—holds up to 14" x 17" film sizes
- Prevents accidental opening and film exposure
- Large inside storage

Model 30770

(Model 30771 is same size with electronics)

Model 30772

Model 30774

Stackables for Records and for X-Ray Files

No tools, no pins and no hardware are required to put these cabinets together. Each component is individually boxed for easy unloading. Easy handling and set-up for facilities with minimal staff.

Model 50101 – Records Shelf – 32" w x 12" d x 13" h – 23 lbs

Model 50110 – Records 2" Base – 6 lbs

Model 50120 – Records Cover – 4 lbs

Records and Film Storage Products

Built-Tough Records and X-Ray Filing Cabinets

These units are shipped fully assembled and are suitable for outer offices as well as file rooms. Built with all steel nut and bolt construction for maximum strength. Solid backs and side panels add to security. Almond is the standard color, but custom colors are also available through special request.

Other features include:

- Narrow compartments: dividers are 6" apart
- 15 3/8" vertical shelf clearance.
- 12-gauge corner posts for maximum vertical strength
- Full height dividers add vertical strength and stability
- Full depth dividers prevent snagging and ripping of film jackets.

Model 50410 – 36" w x 18" d x 84" h – 238 lbs – Ships Fully Assembled

Model 50412 – 36" w x 18" d x 84" h – With Doors – 288 lbs – Ships Fully Assembled

Model 50414 – 48" w x 18" d x 84" h – 295 lbs – Ships Fully Assembled

Our Built-Tough X-Ray Filing Cabinets must be shipped by truck line.

These models cannot be shipped by FedEx or UPS type services.

Mammography Cabinets

These units are ideal for storing bulk supplies and digital media. Secure your media with locking door. Units ship fully assembled and are suitable for outer offices as well as file rooms.

There are two models. The **Built-Tough Series** is our more economical and uses all steel nut and bolt construction for maximum strength. Solid backs and side panels add to security. Must ship by truck line. These models cannot be shipped by FedEx or UPS type services.
