

New Service from AMD Technologies, Inc.

One monthly price for small Cloud clients

We believe that the Cloud can be effective for small clients in place of PC or server-based PACS systems.

What do we mean by “small clients”? We mean those producing 2,000 or fewer studies per year **and** who are doing solely CR and DR types of studies.

Measured another way, these are clients producing up to 10,000 images per year or approximately 300GB of storage per year.

For these clients, we now offer a Cloud solution at an introductory flat monthly rate of \$289.00 per month for a one year contract for clients you sign up through January 31, 2015.ⁱ

There is also a one-time \$629.00 set-up fee.

The package includes:

- Remote installation of our secure router on your client's computer
- Automatic upload of all images to Catella Cloud from one modality to a secure location
- Full functional viewing software including a full set of imaging tools, CD publishing and reporting
- 7 year Cloud storage of images
- Optional 50+ specialty line analysis tools for your chiropractic clients (\$15/month)
- Either a general radiology or a veterinary medical viewer can be specified

What are the advantages to you and your clients? You know them already, but here they are again:

1. No PACS hardware or software to purchase or maintain
2. All system updates automatically appear the next time the viewing site is opened in the browser
3. Full diagnostic viewing application can run on your client's current standard PC's with Microsoft IE 10X+
4. Viewing capabilities include: worklist, W/L, Zoom/mag, series comparisons, stack view...
5. No upgrades necessary when Microsoft discontinues support for an operating system

So if you want a PACS solution that is easy and cost-effective...something with recurring revenues...and you want to keep it in the family...the Vision Partners family...give us a call.

Daniel Giesberg

1.310.471.8900 * giesberg@amdtechnologies.com

ⁱ If the client exceeds 175 studies in a given month, the additional studies are billed at \$2.50/study rate.
